# **“Cure Environment ”**

**ERASMUS+ KA152 – Mobility of Young People**

**27 JULY – 4 AUG 2023 - Gaziantep, TÜRKİYE**

# Objective of the Project

2

**Creating Awareness:** The main goal of the project is to create awareness about environmental issues in society. Through participants, we aim to make people more conscious about environmental and forest pollution and encourage them to take action.

**Raising Community Awareness:** The project aims to raise awareness among the community about environmental issues. Through participants, we aim to increase the community's knowledge about the importance of the environment, the need for its preservation, and the principles of sustainability through information sharing and educational activities.

**Increasing Tree and Seedling Ratio:** Through the activities carried out within the project, we aim to increase awareness about tree planting and contribute to afforestation projects. We will actively encourage our participants to engage in tree planting, afforestation activities, and projects for the preservation of natural habitats.

**Establishing Collaboration and Global Connections:** The project aims to work together with participants from Europe and establish global connections. Through participants from different cultures and experiences, we aim to promote international collaboration and knowledge sharing on environmental issues and develop joint projects.

**Promoting Sustainability Consciousness:** The project aims to promote sustainable lifestyles by emphasizing sustainability principles. We aim to raise awareness about ecological footprint reduction, energy efficiency, waste management, and other related topics to spread sustainability consciousness among participants and the community.

**Contributing to Social Change:** With our project, we aim to contribute to social change regarding environmental issues. Through inclusive activities and projects that involve a wide range of the community, we aim to bring about a transformation in environmental awareness and action.

In line with these goals, we aim to create a positive change in society and the environment by organizing interactive activities in which participants actively engage.

# Cultural Nights

Don't forget to bring some traditional music for the intercultural evenings.  
We will have one cultural night per country where you can expose your customs, traditional dances and culture.

Please !!!  
All the teams must prepare some presentation of your country in a creative way (try to avoid PowerPoint and movies from tourist agencies).  
We hope, that your culture means you something more than national food and drinks.  
Also bring the flag of your country. It would be nice if you bring also some small souvenirs with you (costs are not covered).

*Traditional Clothes*

*Souvenirs*

*Chocolates&Snacks*

# Participants Profile

7

- **Young People (Ages 18-30):** The primary target group for Erasmus+ Youth Exchange projects is young people. Participants should be between the ages of 18 and 30 to ensure eligibility for the program. This age range allows for a diverse group of participants who are open to new experiences, willing to learn, and actively engage in the project activities.
- **Youth Leaders and Volunteers:** Participants who have experience in youth leadership roles or have previously engaged in volunteering activities can bring valuable skills and knowledge to the project. They can act as role models, facilitate group discussions, and contribute to the overall success of the project.
- **Environmental Enthusiasts:** Individuals who have a genuine interest in environmental issues, sustainability, and nature conservation should be targeted. These participants are motivated to make a positive impact on the environment and are eager to learn and share their knowledge with others.
- **Cultural Diversity Advocates:** Including participants from diverse cultural backgrounds can enrich the project and foster intercultural learning and understanding. Participants who value cultural diversity, promote inclusion, and are open to different perspectives can contribute to creating an inclusive and vibrant project environment.
- **Creative Thinkers and Innovators:** Participants who possess creative thinking skills and an innovative mindset can contribute fresh ideas and solutions to address environmental challenges. Their creativity can help generate engaging activities, develop educational materials, or design awareness campaigns that effectively communicate the project's messages.
- **Social Media and Communication Enthusiasts:** Participants with skills and interest in social media management, content creation, and communication can play a vital role in spreading the project's outcomes and raising awareness. They can help document the project activities, create engaging content, and utilize various communication channels to reach a wider audience.
- **Remember to adapt the participant profiles based on the specific objectives and activities of your Erasmus+ Youth Exchange project.**

# Participant Selection Criteria

- candidates' profile and match to the topic
- participants' experiences on environmental solutions
- participants with fewer opportunities
