The project

"Discover your talent" is a project for youth mobility with the financial support of the Erasmus + Program.

The project is for young people who are looking for their place in society. This could be achieved by discovering of their own talent.

The first step to this is to do a self-assessment - what you like, what you don't like, what you admire and what you reject. This self-assessment will allow the participants to get to know themselves and the other participants in the project better. The self-assessment will focus on 10 areas of talent - visual, linguistic, digital, working with people, physical, logical, musical, stage and theatre, crafts and humanities.

Once participants discover their talent, the next step is to put the talent at the service of others. It is important to improve and develop this talent with new knowledge and skills in order to become attractive.

Young people with a clear self-assessment of their knowledge, skills and open talent will easily participate and contribute to building a democratic European society.

On the way to discovering talents, participants will promote intercultural dialogue, strengthen European values and break down prejudices and stereotypes. The focus of the project will be on young people with fewer opportunities.

The project will involve 40 participants from 8 countries in Europe - Bulgaria, Spain, Serbia, Ukraine, Bosnia and Herzegovina, Turkey, Estonia, Romania.

The venue will be in Bulgaria, Gabrovo region in the period 03.05.2022 – 12.05.2022.

The project results will be:

- acquired new knowledge and skills for self-assessment and self-analysis to encourage the discovery of talent;

"The European Commission's support for the production of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein."
