Youth Exchange

yEUth

17-25 November 2023 Pervolia, Cyprus

"yEUTH" is a youth exchange focusing on helping young people understand their European identity and the benefits of the European Union. This project aims to connect our countries by exploring our shared values, history, and successes while learning from mistakes. The exchange holds four main goals:

 To encourage positive perspectives for young people, especially considering the negative impact of the COVID-19 pandemic. It highlights how green and digital transitions, along with Union policies, offer opportunities for both young people and society.
To empower young individuals, especially those from disadvantaged backgrounds, to gain relevant knowledge and skills, becoming active and engaged European citizens.
To help young people better comprehend and promote available opportunities at EU, national, regional, and local levels for their personal, social, economic, and professional growth.
To integrate youth policy into various Union policy areas, aligning with the EU Youth Strategy 2019 – 2027, ensuring a youth perspective influences decision-making at all levels.

Despite challenges posed by the COVID pandemic, young people have demonstrated resilience and determination. While facing criticism and blame, we've shown our commitment by following safety measures and embracing vaccination. We recognize the need for representation and inclusion in decision-making for a stronger recovery. This project aims to ensure that our generation's voice is heard and valued, promoting a brighter European future for us all.
